Subject: SSNOCWTA 2023 Supervisor Meeting Agenda

1. Current SSNOCWTA Contractors
2. Completed Projects
3. Current Projects
4. Emergencies
 1. ARV 112
5. Pump Station Maintenance
 1. Wet Well Cleanings
 2. Daily Maintenance List – SSNOCWTA is developing a list of the basic daily maintenance duties that take place at each Pump Station. The list should be acceptable to each entity member and is looking for feedback from each member to ultimately achieve concurrence among all members. This is the current draft:
 - Generator weekly testing
 - o Check oil/filter and fuel level
 - o Check exhaust system
 - Cleaning of wet well
 - o minimize Fats, Oils and Greases
 - o de-rag
 - Pump Maintenance
 - o Pulled approximately every 1,000 hours
 - o Check pump components impeller, shafts, sleeves, wear rings, plates, etc.
 - Check pressure gauge
 - Check operation of valves
 - o open and close
 - Keep lift station site clean of trash and other debris
 - Check control panel for any damage, moisture, etc.
 - Electrical check out
 - o Main disconnects and ATS
 - o Lights

- 6. Pipeline Maintenance
- 7. Spare Materials
 - 1. Repair clamps
- 8. Up Coming CIP Projects
